

1. At first login Jira Software

2. Then its need to give any site name.  
Here I used name 'airin105' as a site name.

3. Then its need to give the project name. The name will be which software you need to test.  
Here I tested 'online daraz shopping' as a demo.  
And the key will be auto generated like 'DOS'.  
After clicking create project, it will be created.

### Add project details

You can change these details anytime in your project settings.

Name

Daraz Online Shopping

Key

DOS

Template

Change template

Scrum **RECOMMENDED**

Sprint toward your project goals with a board, backlog, and roadmap.

Type

Change type

Team-managed **RECOMMENDED**

Control your own working processes and practices in a self-contained space.

DOS Sprint 1 Add dates (0 issues) Start sprint

Plan your sprint  
Drag issues from the **Backlog** section, or create new issues, to plan the work for this sprint. Select **Start sprint** when you're ready.

+ Create issue

Backlog (0 issues) Create sprint

Quickstart

Create a project

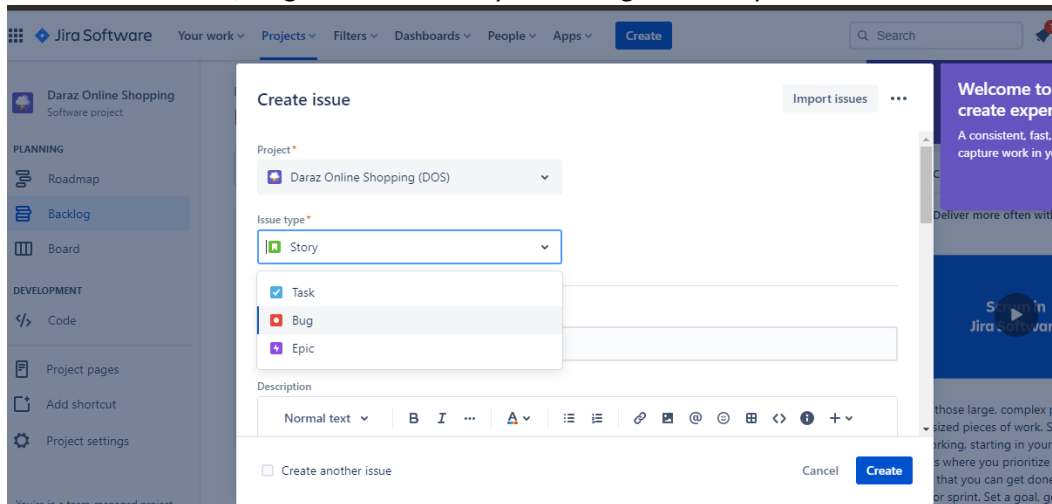

Deliver more often with scrum

Scrum in Jira Software

Turn those large, complex projects into bite-sized pieces of work. Scrum is a way of working, starting in your **Backlog**. This is where you prioritize and choose work that you can get done in a time-box, or sprint. Set a goal, go hard, then deliver more often with scrum.

Diagrams Quickstart

6. As I create an error/ bug issue. That's why select bug from story.

10. Then browse to add the screenshot of application, where the problem is.  
After that, I have click on create to create the backlog.

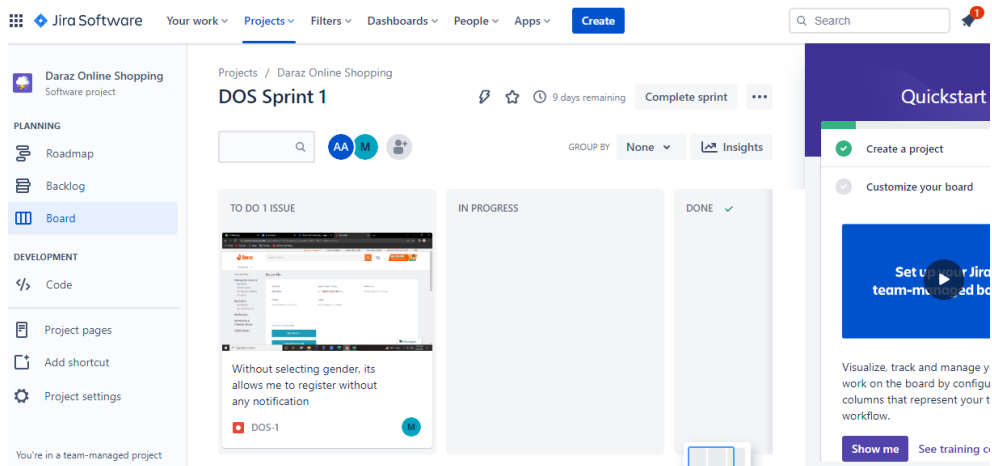

11. Here the Backlog is created.  
Click on start sprint to see the stage of work.

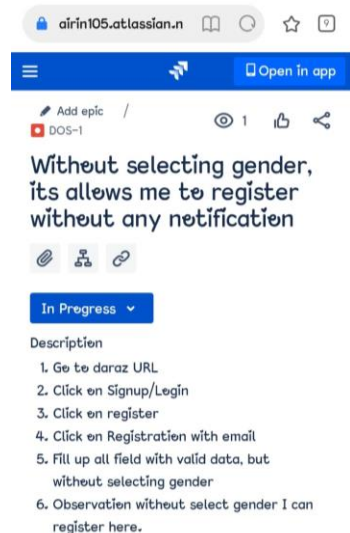

12. Click on save button

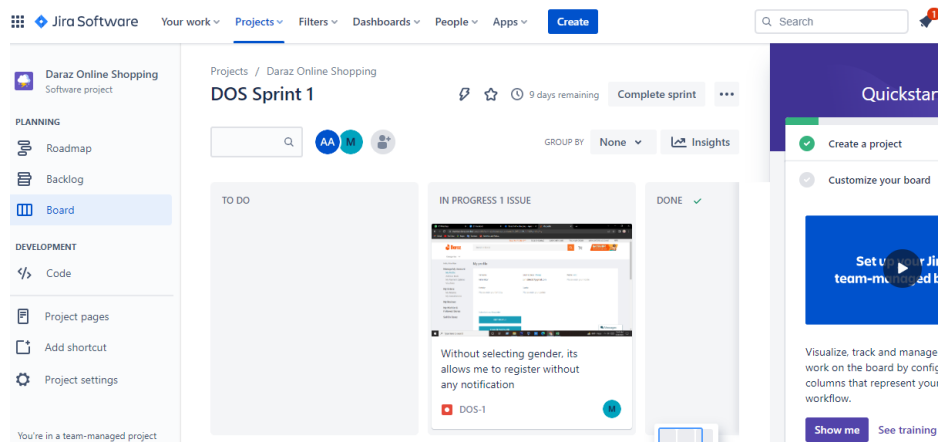

13. Here the issue is on to do list, because developer isn't start the work to fix it.  
Only developer can change the stage.

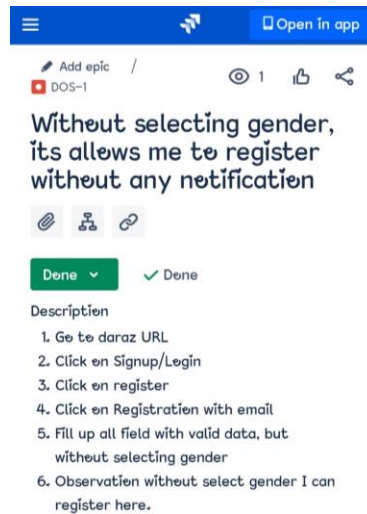

14. Here developer selected 'in progress' stage.  
The stage automatically changed I can see it on board.

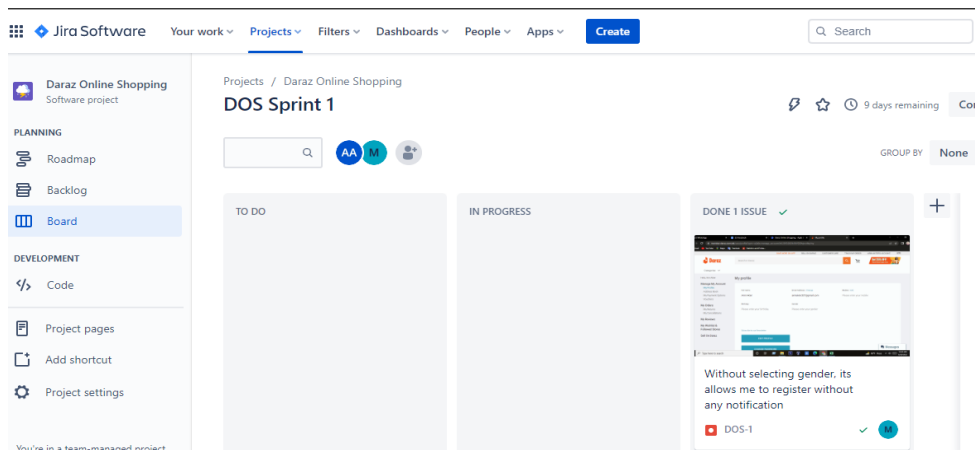

15. Here the status changed into 'in progress' which is shown on board.

16. After that, if the developer complete the work and changed the status 'Done'. Then it will show on board.

17. Then the board showed that, the work is on done status. And to do list is blank.

18. And finally there will be no backlog item.
